

ACTIVITY 1 : Write an account about the intervention of a local company

Objective :

Communicate on the project: write an account about an activity carried out at school (the intervention of a local company).

Items evaluated :

C4 Produce documents including technical vocabulary.

C5 Relate activities and describe personal experiences.

Description of the activity:

The manager and an employee of the company Orhac are coming on October 6th to present their activity regarding the building of environmental-friendly houses, and to give students knowledge as to the use of ecological materials for insulation and how to build an energy-efficient house. This knowledge will be useful for students for choices of materials to make their model.
